

August/September 2023

STEM Programs

Join us at the MSPMLC for learning and fun!

Saturday August 19, 2023

10:00am-2:00pm

Child Safety Seat Inspection Check Point

Did you know that 80% of Child Safety Seats are installed incorrectly? Confused with rear facing, front facing, tethers and LATCH's? Visit the MSPMLC and a Nationally Certified Car Seat Technician will verify that you have the correct seat for your car, that properly fits your child, and that it is installed properly. Just bring your car, seat and child to our rear parking lot on Cottage Street to keep your family safe!

No appointment necessary. This is a FREE event!

Saturday September 9, 2023

11:00am-12:30pm

CSI Workshop Session 1: MSP Case Study

Join Retired Trooper Landry as he discusses the investigation of a murder case he solved. In this hands-on highly interactive program, participants will be guided through the process of the investigation while being encouraged to join in and offer their view of the evidence and witness accounts. They will then work in groups to find, collect evidence including hairs and fibers.

This evidence will then be analyzed in future CSI sessions.

Ages 14-17. Limit of 15 participants

\$15.00 fee for materials and supplies

Saturday August 26, 2023

11:00am-12:00pm

On the Case with Detective McNab:

Surf's Up! Who's Making a Splash?

Beach day for the Fantasy Forest residents! They're looking forward to some summer sun and fun until the pirates show up to steal the fun....AND picnic! But was it the pirates or someone else? Come help Det. McNab find the culprit who is stealing from the residents and causing mayhem! Participants will search for clues, process, and examine the evidence, and finally identify the culprit.

Ages 6-9. Limit of 15 participants.

\$15.00 fee for materials and supplies.

Saturday September 23, 2023

11:00am-12:30pm

CSI Workshop Session 2: Prints, Imprints, and Tool Impressions

In this session, Retired Trooper Landry and a current MSP Crime Scene Investigator will lead participants through the steps of analyzing the fingerprint, imprint, and tool impression evidence that was collected by the Junior Investigators during CSI Workshop Session 1. New Investigators are welcome even if they did not attend Session 1.

Ages 14-17. Limit of 15 participants

\$15.00 fee for materials and supplies

All programs align with Massachusetts Curriculum Frameworks
