

Instructions for making your own Rubber Band Helicopter

STEP 1 –

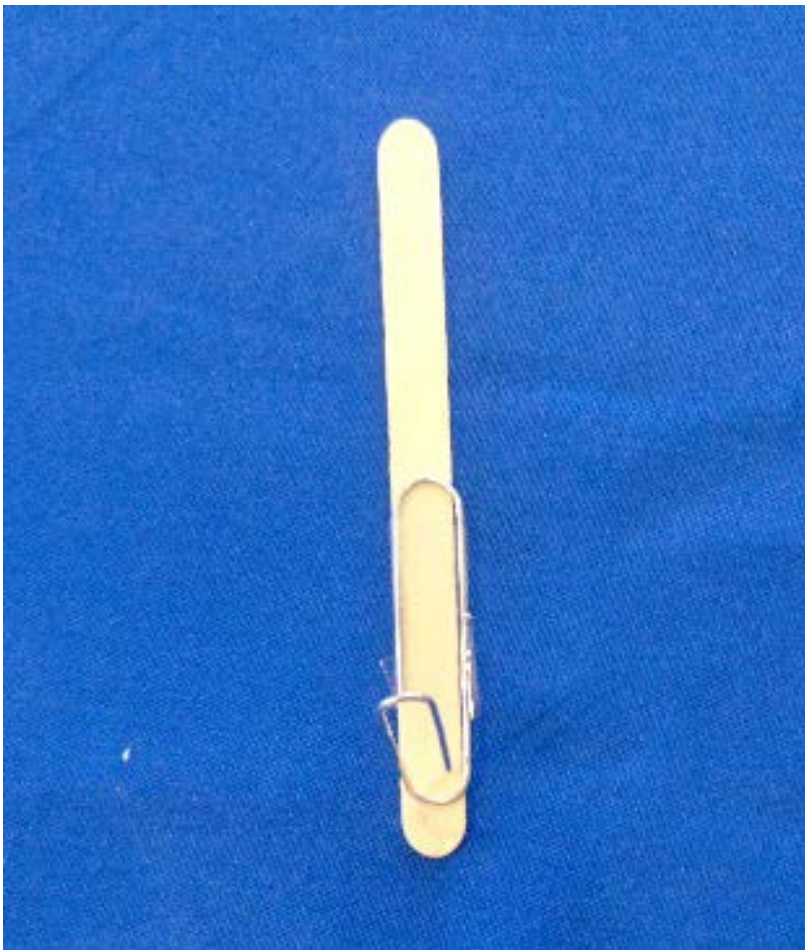

Gather supplies needed:

- 1 helicopter cut out
- 1 craft stick
- 2 elastics
- 1 paperclip
- 1 propeller
- Scotch tape

You can purchase a kit with all these parts customized for the MSP AirWing at the MSPMLC Gift Shop in Grafton for \$10, or on Amazon at:

<https://www.amazon.com/YouMake-10-Pack-Rubber-Band-Helicopter/dp/B07MJR98KH/>

A printable photo of AIR4 is available at this link: **MSP AIR4**

STEP 2 –

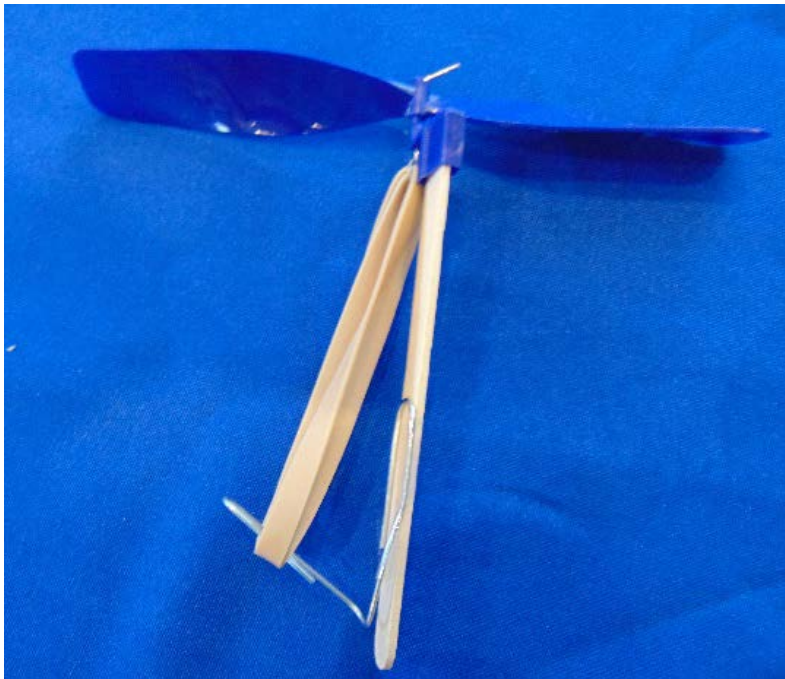

Carefully unbend the paperclip and tape it securely to the craft stick.

Instructions for making your own Rubber Band Helicopter

STEP 3 –

Attach propeller securely onto the opposite end of the craft stick

STEP 4 –

Carefully attach BOTH elastics - 1 end to the small hook on the propeller and the other around the paperclip.

Instructions for making your own Rubber Band Helicopter

STEP 5 –

Cut out helicopter and attach it to the craft stick with tape.

Wind up the propeller and test your helicopter!
